SECTION 3 - DESCRIPTION OF SERVICE (Continued)**3.4 Service Offerings (Continued)****3.4.16 Calling Card Surcharge Based Plan**

This new plan is an add-on to the interstate filing of the Calling Card Flat Rate Plan in Carrier's FCC Tariff No. 1. The Calling Card Flat Rate Plan is available to residential Customers. This plan allows customers to originate outbound, direct dialed long distance calls via a toll free number. Customers will be billed a flat per minute rate for each call originating and terminating within the mainland U.S., Alaska, Hawaii, Puerto Rico, U.S. Virgin Islands and Guam. International calls will be rated at International Message Telecommunications Service rates. A payphone surcharge will be assessed, where applicable, on all calls made from a public payphone including each pound (#) reorigination completed call. By pressing the pound (#) key, Customer is able to terminate one call while remaining connected to the calling card platform in order to originate additional calls without redialing the toll free number. Conference calling, which allows Customers to add more than one person to a specific call, is available. The originator of the conference call will be billed each conference call leg in addition to the rate per minute for each leg of the call. Conversation minutes, reflecting usage sensitive charges, are billed in increments of one minute following the initial minimum billing period of one minute. Charges are rounded to the next higher minute for billing purposes. As an option to Customer, Carrier will offer the Calling Card Flat Rate Plan for billing on the Verizon VISA credit card or to any other credit card that is acceptable to Carrier. It will be the obligation of credit card Customers to meet the terms and conditions set forth by the credit card company.

Rates are found in Section 4.3.2.
